LAWYERS IN A FIGHT.

Attorneys Edwards and Streiby, of Williamsport, Pummet Each Other. Williamsport, Pa., Jan. 20.—District Attorney N. M. Edwards and John F. Strelliy, a prominent lawyer, were engaged in conducting a law suit today before Alderman Batzle... A remark made by Mr. Strelby incensed Mr. Ed-wards. The latter jumped to his feet and shook his fist menacingly in Mr. Strelby's face, the while using language that was not complimentary

Mr. Streiby lunged out with his right in the direction of the district attorney. but the blow was warded. Then the two lawyers clinched. Both are of about equal physical strength but Streib neceeded in clutching Edwards by the throat. By this time Constable Knauff took a hand and attempted to separate the combatants. For his pains Mr Streiby struck him a blow in the face causing the blood to spurt. The court then took a hand in getting the fight stopped, and in a few minutes both men were pulled away, neither of them having sustained any injury except to their shirt fronts and cravats. The fight between the lawyers, however, cut short the dignity of the court, and Alderman Batzle adjourned the case. Both men apologized to each other

Does Not Come Within General Terms of the Arbitration Treaty.

OLNEY ENCOUNTERS OBSTRUCTIONS

Antagonism to the Convention Is Plainty Indicated -- The Secretary Makes No Impression on the Senate Committee in Civing Explanations of Features That Pros voked Craticism.

Washington, Jan. 20 -The senate promittee on foreign relations this norning fistened to Secretary Olney for more than one hour. The secretary the drew the general treaty of arbicration between this government and Great Britain, made an claborate argument in favor of the ratification of the renty as sent to the senate The question propounded to Mr. Olney

adjented quite plainly an antagonism the text of the convention, and the itention of senators to insist upon its mendment before reporting the instrument to the senate. No action was taken and it is intimated that action cannot possibly be had for some weeks

Mr. Olney was questioned by the ommittee closely as to the general scope of the arbitration treaty and stated that it did not include the arbi-Wilmington, Del., Jan. 20.-The Ad- tration of the Monroe dectrine, and was so understood by this government and Great Eritain. The matters in dispute that were to come under the pro--visions of the convention were Richard R. Kenney's certificate of such as might grow out of dection as United States senator was treaty rights or under international signed by the speakers and clerks or laws. In elaborating his statement that the Monroe doctrine would not come

within the general terms of the treaty of arbitration, Mr. Olney told the committee that it was well understood by the negotiations of the convention that all questions relating to the foreign solicy of either government were not intended to be included in the terms of the treaty. ISSUE ON NICARAGUA CANAL.

It is understood, however, that when ressed on the subject of the Nicaraguan canal Mr. Olney said that if Great Britain sought to make an issue on that subject growing out of the terms of the xisting Clayton-Bulwer treaty, it yould probably come within this general treaty under that clause which provides for the settlement of disputes between the two governments arising under treaties or otherwise."

The suggestion was made that the clause be put in the treaty relative to the elimination of the Monroe doctrine, that there could be no dispute on that question in the future. It was far as can be learned Mr. Olney made mittee and it is today as firmly convinced as ever that the convention requires radical

amendment before it is ratified. In reply to the criticism of the selection of the King of Sweden and Norway as the umpire, Mr. Olney said that cricic ten fully provided against any possible miscarriage of justice in that it enabled either party to select another umpire either for all cases to arise under the treaty or any particular case everything that could be done to make the court absolutely importial and its finding just had been accomplished.
